git checkout -

This command allows you to switch to your previous branch, kind of like `cd -` in bash

`git checkout -b <branch>`

git grep

git gc --aggressive

git bisect

This one is a must know. <https://git-scm.com/docs/git-bisect>

git reflog

This one is a must know. <https://git-scm.com/docs/git-reflog>

git rebase -i

-i or --interactive

gh, for github

gourcē

because it's beautiful

tig

a git client in your terminal
