Sylius & Sylius-Standard

Sylius est le framework principal tandis que Sylius-standard est une configuration pré-packagée de Sylius avec des fonctionnalités et des configurations prédéfinies pour accélérer le processus de démarrage d'un projet.

```
symfony composer create-project --no-scripts sylius/sylius-standard=^1.12.0 apps/sylius
```

Sylius-standard avec la 2.0

N'étant pas disponible en 2.0 on fait quelques ajustement pour mettre à jour les dépendances
